Setup the Wi-Fi Connection

Power On the Device

Connect the Transformer/Wi-Fi box to 100-240V AC.

Steps to connect to Wi-Fi

Choose one of the following options:

Option 1:

Turn the device OFF and ON 3 times consecutively (within 2 seconds).

The LED light will start blinking, indicating that the device is in setup mode.

Connect via the Wi-Fi App

Open the smart life app and add the device manually or through auto-scan.

You may be prompted to enable Bluetooth for easier setup.

Complete the Setup

Follow the instructions in the app to successfully add the device.

The device can only be paired with one smartphone (Homeowner).

The Homeowner needs to share the device

with other family members to allow them to control it.

After Successful Wi-Fi Setup

The device will be identified by a unique ID#.

The Homeowner can control the device online from anywhere, as long as there is internet access.
